

What do we mean by 'independent'?

Deciding for myself

Not having to do anything I don't want to, complete freedom of choice.

That we can do what we want to do. Our own choice.

Doing what I want when I want to do it

Going to see your local football team

When i can go to the shops by myself and visit my wife.

Having choice and making decisions

Follow your interests that make you happy

What do we mean by 'independent'?

Doing whatever I can ,
not needing to rely on
anybody else

Freedom

Not relying on others to help
you do what are considered
everyday things. Or be able to
know or find out where and how
to go when you need to draft in
expertise.

Getting on the ring and
ride and going to the
disco.

Being able to work and
share your experiences
and creativity

Choosing what I want to
do.

My cat's independent,
he goes in and out when
he wants.

Going out to different
places to the pub Going out
on my bike Going shopping
Doing your washing

What do we mean by 'independent'?

Every day things feed the ducks, do the things every one else does

Taking care of myself and my family myself without relying on anybody else financially

Thinking for myself

Doing what you want to without any restrictions
